BRIEF PRESCRIBING INFORMATION:

Composition: Each capsule of ZESCAP 200mg, 400mg and 600mg contains 200mg, 400mg and 600mg of Vitamin-E (dl-Alpha Tocopherol Acetate) respectively. **Indications:** Muscle cramps, Fertility disorders, Cardiovascular risk factors and Diabetes related heart problems. **Contraindications:** Hypersensitivity to Vitamin-E or any component of it. **Dosage:** As a Vitamin-E supplement, 1 or 2 soft gelatin capsules with water preferably after meal or as directed by the physician. **Over Dosage:** Vitamin-E is usually well tolerated. Large doses may cause diarrhea, abdominal pain, gastrointestinal disturbances, fatigue, weakness and have been reported to increase bleeding tendency in Vitamin-K deficient patients such as those taking oral anticoagulants. **Interaction:** Various drugs may interfere with the absorption of Vitamin-E, including colestyramine, colestipol, and orlistate. High doses of Vitamin-E may increase the effects of oral anticoagulants.

HALAL
SOFT GEL CAPSULES

Vitamin-E

The human body is very susceptible to oxidative damages from free radicals. They are believed to have an important role in the development of many diseases.

Zescap (Vitamin-E), a major lipid-soluble antioxidant, helps reducing damage to the body caused by free radicals.

Zescap (Vitamin-E) helps maintain cellular integrity. Provides prescription ease due to its 200mg, 400mg & 600mg strengths that suit the needs of individual patient.

Zescap is ideal Antioxidant for:

Skin disorder

Muscle cramps

Diabetic complications

Hepatitis

Male infertility

Fibrocystic breast disease
